

Task Sheet

Front-end Developer Quiz

Goal: Build a home page for a fictional school/University using the attached wireframe and style guide as reference. At its full width the main content container is 960px wide. Everything else may be left to your own interpretation.

You may build locally and send us a .ZIP file containing your completed work.

Home page should include at least the following items:

- **Header**
 - Spans 100% page width
 - Logo
 - Social Networking Icons (i.e.- Facebook, Twitter, LinkedIn, etc.)
- **Navigation Links**
 - About N.U., Admission, Academics, Research, Campus Life
- **Banner Image Area**
- **Content area** divided into 3 unequal columns
 - One column contains a basic input for user to enter their email address
- **3 Call-out boxes**
 - An attention getting image or icon
 - A caption or call-out text
 - A call-to-action button
- **Footer**
 - Spans 100% page width
 - Utility links (i.e.- Contact, Terms, Disclaimer, etc.)

Wireframe Guideline

Front-end Developer Quiz

You may use this wireframe as a guide to help you build the home page. Required items are listed on the Task Sheet. The final product is up to your own interpretation.
